Clamping Set (with screws)

Clamping Sleeve (without screws)

1. Geometry and performance data

1. Geometry

Inner diameter*	d_1	[mm]
Outer diameter *	d_2	[mm]
Length	L	[mm]

2. Performance requirements

Required max. torque*	M	[Nm]
Max. axial force	F_{ax}	[kN]
Max. rpm	n_{max}	[1/min]

2. Material and surface requirements

1. Raw material

Material	Steel (default) other (please specify)	Stainless steel
----------	---	-----------------

2. Ambient conditions

Temperatur > 100°C	No (default)	Yes
--------------------	--------------	-----

3. Coating

Coating	black oxide (default)	blank	corrosion protection
---------	-----------------------	-------	----------------------

3. Commercial questions

Application*

Quantity* [pieces]

Demand* annual demand one-time

Number of prototypes needed [pieces]

Required delivery date [DD-MM-YYYY]

4. Connecting components/assembly

1. Tolerances - Spindle Thread

h5 (default) h6 k6/m6 other

2. Tolerances - Hub

H6 (default) H7 other

5. Contact information
